Fast Track to Wealth

All-day Seminar

What's It About?

How to buy and sell houses in any economy or market without using your money or credit to get the fastest and easiest profits and avoid the costly entanglement like rehabs, banks, loans, contracts, realtors, inspectors and other enemies to your success.

What You'll Learn:

- What kind of deals will make you the most money the fastest, and how to get multiple income streams from each for years after you get the deal.
- Why 95% of the work is done by others and how I buy 2-4 houses a month in less than 5 hours. How you can quickly do the same with no staff and minimum overhead.
- How to get a consistent flow of leads coming to you, almost free, and get a trained Virtual Assistant to call the seller at minimal cost.
- How to use my scripts to quickly prescreen them and let them make you an offer.
- How to sell them quickly and get big checks within days of selecting your buyer, using no banks, appraisers, inspectors, Realtors®, or other deal-killing interference.
- You'll see why 70% of the potential home-buyers must come to you because they can't qualify at a bank. They can with you.
- Why your best deals are pretty houses in nice neighborhoods needing no work, and the higher priced, the better. When you learn to operate without risk, you'll love high-priced houses much more than the low-end crap most rehabbers fight over.
- How to buy your next residence without applying for a loan, regardless of your credit score, with little or no down payment and move in within a few days. Your credit, history, financial status, or experience has nothing to do with buying houses on Planet Ron. If your credit score is minus 500, you can buy all the houses you want, many with nothing down. We'll prove it while you watch.
- How to build a residual income within a few months to surpass your current job or business. I put a lot of people out of work. When your passive income will sustain your needs, only then can you decide if it's time to be totally self-employed.
- How to use your IRA to make sure your retirement doesn't depend on Social Security. Everything I discuss can be done in your IRA, tax-free – legally.
- How to take the title to houses and what entity to use, and why to protect yourself from predators and reduce taxes.
